

ENGINEER CERTIFICATE

(IN ACCORDANCE WITH THE TOWN & COUNTRY PLANNING ACT)

Declaration by the Design/ Supervising Engineer

I/We.....being the engineer who is/are representing
.....in respect to the proposed
development under Planning Reference; DC/CERT/MW..... hereby certify
that the structural designs and calculations for the above project have been
designed in accordance with the relevant codes of practices and British Standards
specified in the Town & Country Planning Act, and that I/We,

- i. take the responsibility of ensuring that all design requirements are implemented during construction; and
- ii. submit to Planning Authority required structural checks including other relevant documents as proof for my/our supervision of the aforementioned development
- ii. upon completion of the development send to the Authority a signed certificate to certify the structural stability
- iii. shall respect deadlines requested by Planning Authority to submit amendments or additional documents when required in the prompt processing of structural details.

IMPORTANT

ORIGINAL ENGINEER'S CERTIFICATE IS REQUIRED (PHOTOCOPY WILL NOT BE ACCEPTED)

Declaration by the Developer(s)

- i. I/we.....
herein confirm that I/we have appointed the undersigned Engineer to design the structural components of the aforementioned development.
- ii. I/we herein confirm that I/we will ensure that my/our chosen building contractor/builder liaises with the Engineer and establish a link between the two parties.
- iii. I/we herein confirm that I/we will inform Planning Authority in writing of change of Licensed Design or/and Supervising Engineer.
